## Food Safety Policy

Insert company scope

Insert company mission statement

The management of **insert company name** have defined and documented the following commitment with respect to food safety:

The top management has defined the food safety Policy. This policy is explained and discussed in the orientation training given to all new employees. It also has been explained to all current employees. All employees must know what the food safety policy means to them, to the extent that it impacts their work or their position within the company. The policy has been posted on prominent sites throughout the facility.

- Manufacture and deliver products that meet the highest food safety standards.
- Meet all statutory and regulatory requirements for food safety, including mutually agreed customer requirements related to food safety.
- Ensure a sustainable food safety culture through the implementation, certification and continuous improvement of effective food safety management systems compliant with ISO/FSSC 22000.
- Validate the effectiveness of the food safety management systems through internal and external audit processes recognized by the International Standards Organization (ISO).
- Apply a risk assessment methodology, aligned with the context in which we operate, to facilitate our ability to achieve food safety management system objectives and continually improve.
- Build a food safety capability, mindset and culture through structured programmes that develop employees' competencies and technical skills, increase awareness, manage risk and drive increasing levels of excellence across the organisation.

**Commented [AN1]:** This should be linked to the Objectives set within the Company.
